Contact our experts with all of your questions! Our Study Abroad team is dedicated to providing the perfect program for you. studyabroad@icesusa.org

Scholarships / Financial Aid: ICES is non-profit and offers our programs at the lowest prices possible to make this experience accessible to as many deserving students as we can. However, we understand that this is a large upfront cost for many families, and that fundraising may be necessary.

To create your own online fundraising platform, check out FundMyTravel, which can help you raise money for your abroad experience through crowd-funding. Refer to FundMyTravel.com to get started.

For more information visit our FAQs page. Prices are subject to change due to currency conversion and partner organization increases.

PROGRAM DATES

Program dates are estimates and may vary depending on school and host family placement. Your exact arrival date will be arranged after your placement is finalized. In most cases, students arrive within one week of their school start date.

ICES HIGH SCHOOL STUDY ABROAD 2018–2019 PRICING GUIDE

Exact departure dates may be set at the time of placement, but in semester and year programs these may be set a few months after the student's arrival in the host country. Students may leave earlier than their planned stay, with advance notice and a signed program release. Students may extend their departures in some cases. Contact ICES to ask about this.

When dates on the guide are marked as "various": students should notify ICES of their preferred arrival and departure dates, and ICES will accommodate these as closely as possible depending on availability. Application deadlines for these programs will be 4 months prior to the desired start date of the program.

For information on school vacations and holidays, refer to the page of the country you are interested in.

KEY INFORMATION

LANGUAGE REQUIREMENTS

You don't have to already speak another language to study abroad! If you'd like to study in a non-English speaking country and haven't studied the language in school, you will be expected to enroll in a course or study on your own prior to your departure. You should have a basic working level of the language. If a student's language level is too low, s/he may be required to follow language instruction outside of their host school at an additional cost.

There are fixed language requirements for the following programs:

France (2 Years), Switzerland (2 Years German)

Students in these countries must have a basic level. If the student is not making the required effort to learn the language, the student must take language courses at an additional cost:

Argentina (Spanish) Austria (German), Germany (German), Ecuador (Spanish), the Netherlands (Dutch)
